## “Letters from Raving Fans”

Was really happy to have found this great and easy to use software. Having looked at a few, this one definitely ticked all my boxes. It's been **easy to use** and the **results have already paid for themselves**.  
- Kelly

I recently made a decision to change my career path mid life and of course this was quite stressful. Thanks to both software I updated my resume and was able to create a great cover letter. This has resulted in me **securing a permanent position in my first choice of job**. I feel that I have not only got great results but also value for money.  
- Heather

Looked good and the suggesting statements and action words helped a lot. **Everything worked as it was supposed to**. Easy to use, good selection of formats. Good software.  
- Marty, Machinery Specialist

It is **straightforward and user friendly**. I cannot think of any negative part of software.  
- Jimmy, Technical Support

Thanks for your prompt reply, your excellent service, and your kind comments. I had a **job interview today, my first in over 20 years!** One member of the panel commented that the CV was excellent, so thank you for your help.  
- Jonathan

Hi you clever cookies who compose these packages! Bought your package with its handy little tips a few days ago, sent my neatly concocted past history with glowing references off in **reply to an ad on Saturday, was interviewed on Monday, and offered the job Tuesday!** (Not bad for 53!!! Was expecting a devil of a job getting people past my date of birth!). Now I would like to believe it was my charm, wit and expertise that clinched the deal, but you and I know the truth really, don't we? Thank you for your help - the format is obviously a winner!  
- Fran

I had no 'bites' with my initial resume, but after using the software, some input from you guys, the short list and **interview opportunities grew exponentially**.  
- Chris, Project & Facilities Manager

You can count me as a major success as I had been in teaching for a long period and had never written a resume or done an interview before this year. **I applied for four jobs in all, got interviews for three of them and was notified that I had the job I wanted the following day!** So, although a lot of it had to do with my determination to get a job, the resume and interview information provided by Aussie Resumes was all I needed to nut out how to go about it. So a big thanks from me, I will recommend your product if my friends find themselves changing direction.  
- Paula, Volunteer Program Coordinator in Social Services

I sent in the application, and it must have made a good impression on them... **I got the job**, even though I was ten minutes late for the interview! Fortunately, they wanted extra help from someone with my skills, anyway. Thanks for all your help. You do your customers a great service.  
- Stephen

I would like to thank all of you for a great program, the ease of which Australian Resume Writer allowed me to convert my old resume and update to my current details was fantastic and a real pleasure to work with. The tips offered for each of the sub sections was enlightening allowing me to review what I had in my past resume and refine the wording to read clearly and to the point. I have recently been appointed to a new National Business Manager Role within the company I have worked for the past 9 years and believe that **your software helped put my resume to the top of the list**. Thankyou all again.  
- Andrew

It was by coincidence that I came across your company on the Internet. I must say I am glad I 'bumped' into you. You opened my eyes to all the dynamics at play in an effective resume. The software certainly helped me and made things a lot easier. It got my mind into gear. Your guidance and patience are sincerely appreciated. The **service is truly first class and great value**.  
- Jack

Aussie Résumés has taught me that there is another way of applying for a job. Great success **I have been interviewed every time** I have applied **using the format that you have shown me and now I am working again**. Thanks for teaching me that selling yourself can be done in a non-threatening way to future employers.  
- Kelley

You have **based your products on research of what employers want**. By continually updating your database of the needs of employers your products remain current. I also appreciate your after sales service.  
- Anonymous Submitter

Bloody excellent!!! I was **offered an interview** on the basis of my resume... a killer!  
- Anthony

Software is very helpful and easy to use. **Very prompt customer support** when I had a technical issue with installation.  
- Liam

Thank you very much for your help with my Resume and cover letter... I would recommend Aussie Resumes to anyone if they are really serious about getting a job... the **small investment in my Resume will pay off a thousand times over** with the new job I have just got... Thanks very much Tara.  
- Alex Armstrong, Exercise Physiologist, WA

I just wanted to inform you that I have successfully secured a full time job at XXX, my role will be to do personal loans and help people with their debt problems; I see myself being very fulfilled as **I get to do the number one thing I love** which is helping people. I'm very excited. Thank you so much for all of your help throughout the last 5 months especially the coaching call it helped me so much. Now whenever I get nervous or anxious about anything I shout the word XXX in my head and it always brings a smile to my face, thanks for teaching me that technique:) I've realised that Attitude is what can win people over even in tough moments like interviews. Thanks again :))) Have an awesome day & weekend!  
- Daniela

Dasun & I wanted to thank you for all the help offered last year in preparing our resumes and cover letters since **we got quite a good number of responses from pretty much all of the companies that we applied for**. We would most certainly contact you in the future for all similar queries.  
- Saduni

I have not forgotten you, but wanted to delay feedback until I had gotten a job. Thank you. You went above and beyond in dealing with my inquiry from the very start. It was your professionalism and interest in my which had me select you and I can say without a single doubt that it was the **quality of your work with my Resume that got me the interview, which was the first and only one I went to**. I especially appreciated how, once you accepted the job, you accommodated my needs without complaining and worked with me to improve it in such a professional manner. Getting that interview was everything, and I am very happy with my new job, which is far less stressful and enjoyable. I am now a Trainer for Teacher Aides, and am going to love it. THANK YOU.  
- Marcel

Just to let you know **within 24 hours** of your work I **got a call to an interview** for next week where **I was 1 of 172 applicants**. Thank you and speak soon.  
- Daniel

**I got the job** with Santos! Thanks for your help earlier this year it has paid off! Thanks Again.  
- Paul

I just wanted to let you know that I had a phone interview this morning. I applied for a Casual Member Service Officer position a few weeks ago and received an email yesterday to say I was unsuccessful. I then sent my new cover letter and resume to HR and also reapplied for the same position and received a phone call this morning. She proceeded to give me a phone interview and promised to call back this afternoon or Monday morning to arrange an interview. I have a really good feeling about my future. I will keep you informed. Thanks again. (follow-up letter: Just letting you know **I landed the Credit Union job**. I'm so excited. Thank you for your help in my quest.)  
- Helen

First of all I would like to thank you for a fantastic guideline to write a cover letter specially the way you have written the sales role part. It's simply great I think. **It will really help me in my job hunting and application procedure**.  
- SM

Many thanks for your help; I have already forwarded your details to friends. Aussie Resume is getting good reviews from Ex South Africans. **All of us need people like Aussie Resumes to handle their entrée into the Australian workplace**. Many thanks and all the best for you and your company.  
- Barry

Thank you so much. In fact, I thank you not only for my resume, but also for **opening my eyes in this so competitive job market**. I should have updated my resume much earlier, but I hope it's not too late. Thank you once again for you invaluable advice and support.  
- Muniz

**I now have a fabulous job** that uses all my skills, is fascinating and **pays 40% better**. Thank you.  
- Roger

**I got my job offer within 2 weeks**, thanks so much! It's such a wise choice to get my resume done through you guys. Will come back for your service for sure.  
- Minglu, Finance

Just a quick thanks to you. Over the past few years **I have sent through professionals and you have helped and given your time, each and every time in the same professional manner** I first found whilst using your services myself. For that I say thank you, and I trust your service has grown in size to match. Best Regards.  
- Robert

Thanks very much Tara! You've been so helpful & prompt. Greatly appreciated all your advises & insights, I'm honoured to have my resume touched up by you. I haven't started job hunting yet, but when & if I do, I will update you on my outcome. Thanks again for your **5 STARS efforts!** Simply superb. Gratefully yours.  
- Kris

Through selective questioning, Tara has a wonderful ability where I solve my own problems / questions through selective questions. Sessions were really great – specifically the 30 minute lightning sessions. These were just brilliant. I had to remain focused on the issue at hand. **Your different and 3rd party perspective has been refreshing.** Your ability to steer the session so that I can work out a given problem or situation myself was great.  
- Tim Barnet

I just wanted to pop you a quick E-mail to say thanks for all your help in building me such a successful resume. **I received a call literally 30 mins after applying.** The direct quote was “the recruitment process is over and I was going to appoint somebody to the role tomorrow. However upon receiving your resume, I just couldn't ignore it”. I had an interview a few days later and as a result I have just been offered a position as a National Operations Manager. Couldn't have done it without you.  
- John H.

I sent out about 20 applications for SEO/Marketing related jobs. I have had an **overwhelming response and already had 4 interviews online and 10 people interested.** I have narrowed it down to 2 jobs that I like the sound of. Plus there are about 4 others that I have to fall back on. I believe it much due to your awesome resume writing skills that I have had such a good response.  
- Grant Davies

Just a quick note to say Hi and Thanks. I've started work with an electrical company based in the western suburbs, which suits me fine. I'd like to say that I secured two jobs, the latter being my new one, which I started a few weeks ago. In particular **they were very impressed by how well my resume was written and presented.** Just thought you'd like to know and I'll be recommending you in the future.  
- Ben

I have very good news, I won a job with [name withheld] this week. The new position is Director, Enterprise and Business Development. It is a newly created position to situate the [name withheld] in a more commercial manner, both locally and off-shore. A very big thank you to you Tara, **your help certainly proved a positive motivation for me** through this quite challenging period.  
- Antonio G.

Wonderful news for me, [name withheld] offered me the position of Administrative Curriculum Team Leader. **I don't think I would have got this far without your professional help, resumes and cover letters make such a big impact.** The extra questions you asked also helped me to think carefully about my past employment, experiences and skills,

and to see them from a different 'results' perspective. Your website is right “your career success begins here today”. Thanks again for such a brilliant job, I'll be recommending your services to friends and colleagues!  
- Helen Andrew

It's been a few months but thought I'd touch base and say thank you for all your help, I really mean that. I was afraid my lack of experience in the social work field would make it a difficult task to gain employment but with your assistance and your honesty about expressing in my resume the desire to make a “transition” into an 'ethical' organisation helped in such a positive way as it showed an awareness to my current skills without compromising my motivation. **I only applied for one job, the job that I wanted and GUESS WHAT...I got it!!!!** So thanks again for your help. I've been working at [name withheld] for almost 12 weeks and I love it.  
- S.E.

I applied for two casual Library jobs and got them both!!! The private college Director and the agency that employed me for the position both commented how impressed they were with my resume and the public library one too I think as they are paying me the top rate due to my 'vast experience and qualifications' so I am feeling very pleased at the moment. So thank you so much for your professionalism. I **couldn't have done it without your expertise.** Your resume always gets me interviews so I'm so happy that I managed to do well in them this time.  
- Margaret Dowling

Tara did a superb job of helping me to identify what things I want to focus on and achieve in my life at this moment. During the exchanges **it is clear that she believes her client already has the answers and knows what is best as the next step to take.** Tara is very adept at drawing out the client's own wisdom. She is also good at setting fair goals/challenges to be achieved before the next session. She sets them at the right level of challenge – stretching, but not over-stretching. [She] is such a good listener that you get the sense that she is connecting with what you're saying at a really profound level. Another highlight for me was Tara's help to clarify what are the priorities in my life right now. And then once the priorities were identified she helped me to initiate a plan. Here again Tara demonstrated her skill at getting me, the client, to create the plan from my own ideas stimulated by her questions.  
- Stephanie Reed, France

A big, big thank you! You did an absolutely fabulous job with my cover letter. Once again keeping to my style of writing and making it very succinct. In fact, my cover letter was so well written that **I did not have to attend an interview and the comment from the panel was that my application cover letter was 'brilliant'.** Thank you once again and I will definitely be recommending your services to friends and acquaintances.

- Sue W.

Thank you very much indeed for all your professional work. I am very happy to see your results and **I am optimistic now that I can present myself in a much better way.** I am equally impressed by your professional approach, results and prompt feedback. I was lucky to use your expertise and vision. Thank you!  
- Yours sincerely, [Stefan P.](#)

First of all sorry to be late in informing that **I have got the job as Graduate Accountant** for now almost three months. Thanks for the resume, it helped me a lot. At the moment I am doing my CPA, So going good. I will definitely need your help in my next step, Thanks again.  
- [Zala C.](#)

Thanks for the good resume so far **I applied 6 Jobs and got a positive reply from all of them.** So at the moment its 100% response. Good job. Keep it up. - [Chetan, Accountant](#)

At first, I was a bit hesitant as I did not really know what I was going to get for my money. But I was put totally at ease very quickly. **I received a job offer 48 hours after I submitted my resume for my dream job.** That just about says it all.  
- [Derek, Lawyer](#)

I just want to let you know how your resume landed me a job I never thought I could have. Not in a million years! I secured 10 interviews with 31 applications sent in 6 days. Closing dates for some of the applications I have sent have not even closed as yet. I have had a busy week, I have had 3 phone interviews, and have done 4 face to face interviews this week, and have another 3 next week. However, I don't need them anymore; I applied for a job as a Customer Service Representative for a building company. At the interview, he was impressed with the resume – how factual and well written it was. When I went back to the employer for the second interview, **he offered me NOT the Customer Service role, but a newly created role just for me!** Instead he made me the Business Development Manager for their firm!! Wow! So thank you once again for your fabulous work, the resume you wrote, the software and your guidance made it possible, you are the very best at what you do. I think you are the Job Genie and you should have a warm glow about you as you have turned our family life around; for me to secure a job like this – 25 hours permanent part time with 5 children and moving toward the career I always have wished for is a dream come true.  
- [Jennifer Phillips](#)

I just wanted to let you know that **I got the position!!** Thank you so much with your help, the cover letter was fantastic, and I definitely think that it was a huge help with me scoring this position. If ever I need your help in the future (which I kind of hope I don't!!) I will definitely choose Aussie Resumes. I have shown my friends the cover letter and they were very impressed, so I hope they choose to use you when they need assistance.

- [Annette Glover, Accounting Graduate](#)

When one's age is 50 plus most industries have a prejudice against employing the aged. I found Aussie Resumes professionalism creates the sizzle to prioritise your job application, with any employer, irrespective of the position. My interview requests quadrupled and, within two days, **I found a Business Development position, with a global company, that paid 6 figures plus.** Aussie Resumes also composed a resume for my daughter, who has a mild, intellectual disability. The composition was far superior to anything else created and a position was found, within 3 days, in a medical instrument company which paid above the award. I highly recommend Aussie Resumes if you require a well paid job.  
[Best Regards, Michael Braham](#)

I would like to take this opportunity to thank-you. I managed to land that job offering at Airlift. It was my first application and also a successful one too! I do believe that **because of the great resume you wrote for me, it was half the battle won.** I was told the resume presented was very impressive. I was actually the last person to be interviewed and managed to edge out applicants from dedicated recruitment firms in the freight forwarding industry. Your services have worked for me and I am extremely grateful.  
- [Tai Kwan](#)

Once again I would like to thank you for expertise "your work really makes an impression" & for going above & beyond your role. **I wouldn't be in this position if it wasn't for you.** I would be more than happy to recommend your services to anybody I know.  
- [George](#)

Dear Tara, **I applied for five jobs and received offers for all of them!** Some even offered me the job straight after the interview. They all commented on my impressive resume. Having a professional resume gave me the confidence I needed to perform well in the interview process. For the first time in my life I actually enjoyed attending interviews.

- [Melissa](#)

Tara brought many strengths to the coaching process, especially her quiet sense of calm confidence and her lack of judgement. By creating a safe haven in which to play with ideas, ideals, values and behaviour patterns, Tara held up a mirror allowing me to explore the intricate patterns swirling through my life. By gently teasing the patterns apart -with feedback from earlier sessions, gentle probing questions and intelligently structured homework questionnaires, Tara arranged for me find out who I really am, not the job titles or family positions, but who I am and who I want to be. Highlights include having the courage to say what I was going to achieve, set a deadline and making sure that events unfolded to achieve those goals. Learning how to honour my personal values, not just take what life dishes up, was one of the greatest lessons... **I learnt a great deal about myself and how to create a new inner direction** from Tara and the personal coaching process.  
- [Erica Mors](#)

I had a few responses, but nothing particularly interesting, so settled back into my happy little rut... I was given the project of co-ordinating the XXX move to another new building in Melbourne's CBD and, over the past six months work tirelessly in order to effect this move with very few problems or issues - so tirelessly, that after eight weeks with no weekends, 50 hours of flex-time and 70 hours of overtime, I was so tired and exhausted that I fell quite ill. This was around five weeks ago. Anyway, four weeks ago - totally out of the blue - I received a call from a recruitment consultant who, unbeknownst to myself, had a copy of the CV I'd sent out all those months ago. **He had a position that he'd been trying to fill for three months or so, and after 70-odd applicants had reached my CV...** He asked if I was still happy at the XXX, which I was, and followed up by asking how much money I'd consider as an incentive to move on. I told him I wasn't really looking, but when he suggested this position would pay somewhere around \$XXk I thought I'd have a look. The next week I met with the Vic/SA/WA HR manager for CB Richard Ellis (CBRE) and, the following day, the account manager for CBRE's national property management account for Deloitte Touche Tohmatsu - one of the Big Four!! By the time I arrived home from this second meeting I had been offered the position of Facilities Manager, Global Corporate Services, Deloitte Touche Tohmatsu; on a package that I negotiated up to \$XXk!! All this on the strength of a 16 month old CV, and two meetings (whilst suffering terribly with a gastric ulcer!!)!! As I write this, I'm on two weeks break. This has all happened so suddenly that it still hasn't sunk in, but I have NO doubt in my mind that none of this would have been possible without your service. It was definitely money well spent! - [Kind regards, James](#)

**Tight, focused, professional, no-nonsense approach** where you know that from the go you are receiving a top service that will impress the reader of your CV.

- [Patrick Horneman, Practice Development Manager / Coach](#)

**Our resume work payed off.** I had an interview this week with ABCTV. Thanks for all your efforts the resume did get results. - [Television Producer](#)

The prompt turnaround, choices and Tara West did a fantastic job from the details I have given her. All family and friends were impressed with the resume and have asked for the contact details. I have only **chased up applications for 3 jobs so far and I was offered an interview for all 3 within 2 days.** - [Laura, HR Manager](#)

Thank you very much for your help and efficient response. I enjoyed doing business with your company and am **satisfied with the end result.** I appreciate your patience and flexibility in, incorporating my personal suggestions into the resume as well. - [Dr S.K.](#)

Gorgeous 'real' people, full of talent, professionalism and human/worldly insight. **Felt very 'at home' and in good hands with all.** I will not hesitate to pass on your details to all of my friends and future colleagues. I also plan to put an advert/publicity bit for you guys in a mag that I do a bit of writing for. Oh and I will also send an email to all on my email listing which includes 200 folks from all backgrounds - doctors, nurses, lawyers, office staff, gardeners. Letting them know how more than pleased that I was with your amazing service. Thank you all. - [Tina D.](#)

Wow once I applied for jobs when I came to my country, I was offered jobs from many schools. Guess what I only had to choose where to teach. **Your format of the resume was just too good.** Now I am teaching in the most expensive school in the country. This is only because of your well written resume. - [Rebecca](#)

A belated thank you for your efforts. The work that you put into my resume was impressive and not only gave me a highly presentable and readable document, but the **creation process helped me think about how to make myself attractive to potential employers in the interview process.** The field of work I am in has grown tight over the last few years making it very hard for Graduates to enter the workplace. It was therefore imperative that I had the whole package, including a faultless, unique resume. Since you created my resume, I have been updating my skills and replacing information as they are superseded by better skills. As I am only replacing information, the original layout is preserved. I would recommend your service to all Graduates.

- [Michael, Environmental Health Officer](#)

Just an update I have **applied for 4 jobs** since you and your team did work on my resume and SC and have been **successful in receiving 4 interviews** and waiting for the result as they are high security jobs they take time. I would just like to thank you and your teams efforts in getting me this far. - [Jason](#)

Thank you so much. I just started a new job as a Vendor Management Specialist for a telecommunications company 2 weeks ago. When you created my resume **you made me realize I have a lot more potential and skills that I didn't know I had,** they were hidden for a while but seeing it all on paper has helped me put all these skills and more to use. Thank you for all your help with my resume and all the advice you gave me. I will always recommend you to people I know if they are searching for a job. Thank you again for everything. - [Georgie Polizos](#)

As a student nurse, I was only able to apply for 4 hospital positions for graduate nurse program for 2007. **I received interviews for all 4 applications.** At every interview the panel commented on my very impressive resume. I can tell you now that my application has been successful, I got my first choice.  
- Juli

Some really good news, I have just won a role as Manager Corporate Services for the Dampier Port Authority, which, apparently, is WA's 2nd largest port. Looking at starting up in the sunny and WARM northwest beginning of August. A big thank you to you and the guys at Aussie Resumes, **you have certainly been instrumental in helping me to win this job.** Your quality of work, dedication and attention to detail has been great.  
- Tony G.

I am so pleased to have been offered an excellent position as Commercial Director Asia/Pacific for a fashion company. There is no doubt that the **excellent resume you compiled for me was a major factor in the selection process.** Thank you!  
- R.H.

I will be **forwarding my recommendation to Xerox that they consider your services** to complement the other out-placement services they provide. In my opinion this would give their out-placed staff a very competitive edge in a very competitive environment of career search and placement. Thanks for what you have completed.  
- Bruce, I.T.

GOOD NEWS, the position I applied for recently, they informed me that I was successful and **I will be starting the new job in a few weeks time.** I want to thank you for your help and guidance with the application and useful tips that you have provided me with. I will be recommending your company to my colleagues and friends and will keep in touch in the future. Once again thanks a lot.  
- K.

I had been applying for jobs, without much success for about 6 months, until I found Aussie Resumes. The very next position I applied for, **they were so impressed with the application they flew me over for the interview.** Since then I have been dealing with Aussie Resumes, for about 18 months, and during that time I have applied for 4 jobs and every time I have received an interview. The interviewers are always impressed by the resume and it is this that gets the interview. I am now moving into a senior managerial position. Even considering all of the above, it was the personal touch that impressed me most. Thankyou Aussie Resumes.  
- Alan L.

Thank you for all of your hard work and effort. I realize it must not have been easy! I received the final of my resume and cover letter along with the interview tips. I have **received two requests for interviews within 48 hours** of submitting my resume. Wish me luck!  
- Ariel H.

Just a quick letter to let you know what a wonderful job you did with my resume. I sent it and **the first thing they said was what a wonderful resume!** After impressing them with my beautiful resume, I had a clinical interview and they sent my contract:) How's that? **First position applied for and I got it,** obviously helped along by your eye catching work:) Thanks heaps.  
- Sandi M.

You helped me with my resume and selection criteria for a job application with the Ag Dept last week. I just wanted to let you know that **I have been asked to come in for an interview!** I am really thrilled with the result. To be honest, before I saw your website I wasn't even going to apply for the job because I was afraid I would spend days working on the application and not even get an interview. Thank you so much for everything, and I will try to let you know how I go.  
- Jade

The recruitment agency was so impressed and told me that my skills are very rare. They offered me a 12 months contract for \$140K! I'm considering taking it. I was a bit sceptical at the beginning having to pay someone to do my resume, however without your assistance in re-doing my old resume (which I used it to apply for a graduate position), **I would not be able to be exposed on a bigger world.** You presented my skills and experience really well in the resume. Thanks again. I recommended your service to my current jealous colleagues.  
- Katie

I would just like to thank you for the help your resume gave me in obtaining my position with a global FMCG company. **I obtained the position on my first interview after receiving my resume from you.** I have had pleasure in telling every one that they should get a professional resume for themselves. I have directed every one to you address. Once again thank you for the resume.  
- Damian W.

Your professionally written resume, selection criteria and introduction letter definitely assisted me in realising my potential and landing a \$70K + job with the Federal Police. I have been in the military for 15 years and hadn't applied for a job in at least that long. I didn't even know what a selection criteria was. Aussie Resumes knew exactly the right questions to ask me, in order to produce a very professional resume and selection criteria. **All my mates are extremely jealous and ask how I got such a sweet job** – I simply say look up Aussie Resumes on the net. Feel free to use this on your webpage – I can't be happier at the moment. Once again thank you for every thing.  
- Simon, I.T.

Thanks again for your time and effort. You have done a superb job! **I passed it by an associate who works for a recruitment company and he was so impressed he wanted to know where I had it done.** So I gave him your website address. I wouldn't be surprised if he refers some of his clients to you in future.  
- Rebekah

I couldn't quite pinpoint what was wrong with my old resume except for its length and clunky English. I tried to put all this information that I thought would be relevant, but the document just bloated and lacked style. And then I put all this stuff in tables and summaries and it became unreadable. Eventually it pissed me off so badly that even I did not want to read it. It wasn't probably the worst resume I've seen but not the best either. I love the new one. **It is compact and all holes are patched**, looks good, reads good and looks good even if you only had a glimpse at it (which is excellent according to this "so-many-seconds" theory). - MM

Thankyou. Aussie Resumes had written a resume for me in September and I have been offered the job. **The interviewers were impressed by the resume and it help put me over the line.** I am now moving from a blue collar environment to a managerial environment with increase pay of 100+ per week. I will be using Aussie Resumes again.

- Peter, Instructor

Well it has been almost three months since I applied for and landed my dream job, and it is only fitting that I finally take this opportunity to thank both yourself and 'Aussie Resumes'. I really had my eye on this job and it was by far the most detailed and complex job application I've had to compile, but your expertise made the task that much easier. The response to the selection criteria and resume revamp worked a treat ! I am eternally **grateful for your truly insightful advice, efficient and friendly service and professional work.** A huge thank you, followed by a thank you and finally thank you!!! - Denis

Just a short note, I have been **short listed for 11 positions in Management** since I started applying with your CV and cover letter. Will keep you informed what happens! Sleeping much better now!! Take care. - Nico

My resume and covering letter was of the highest quality. I **emailed the prospective employer late Friday and the phone was calling late Monday for an interview date.** So, don't want to jinx myself but fingers crossed. Sincerely, Thank You!!!! - Mira, Sales Management

Excellent writing skills.....It certainly enhanced my application.....I am amazed in the turn around time in providing such service....EXCELLENT....**I can only surmise your service as B-E-A-T-S** (Brilliant-Excellent-Admirable-Tremendous-Satisfied). - Jim, Finance Manager

Sorry it has taken awhile to get back to you about the job application we worked on together but I have only just heard back from them today. **They received over 100 applications and I have made it to the final 5!!!!** so thanks so much that is better than I have ever done and to find out on my birthday was bonus indeed. - Natasha, Administration

When you produced my wonderful Resume a few weeks ago **you asked me to let you know if I got the job or not. Well, I did!!!** I have resigned from my current position and finish here next week. I commence my new role as the Office and Sales Administration Manager with my new company on 7 October. Thank you for all your help and assistance with this - especially given the short turn around time we had. I am sure the Resume sealed the position for me!!! Certainly it made a very professional first impression. This new role is a great career move - with the added benefits of a large pay increase and fantastic bonuses!!! So, thank you again - I am very grateful. - Janene

**You'll be pleased to know that I won the job.....**in no small part thanks to you! So Cheers and thanks again. I'll buy you a beer next time you're in town, so be sure to look me up. - Regards, Steve (Engineer)

My wife, Sabiha, is very happy with your service. She got several interviews, and already got an offer within the first couple of weeks of job search and interviews. She is on her way to a couple of more offers next week, since the interviews went very well. **Actually, so many calls for interviews are coming, I told her to put a hold on them until she gets the current offers.** That will give her a break, since she is exhausted with so many interviews in a week, already. (She) is very surprised by the response! She is thanking me since I got her resume redone for Australia. I told her not to thank me, but to thank you... who made it all happen, by excellently rewriting her resume. - Syed

I found that Tara had a **good way of getting me to achieve things**, sometimes even without me planning on doing it before the sessions. Her warm nature really comes over well. Her questions and challenges always seemed to be on the right track. It felt very comfortable and easy to open up to Tara. She is very natural and didn't want to give me any challenges that I was not completely comfortable with, and when I was given a challenge I felt confident enough to push myself. - Julie, Melbourne

Just to give you some feedback. I applied for a position as WA State Manager for a company with a salary of \$75K + car + super + bonuses and was offered the job. **The interviewer said it was the best resume he'd ever seen!** I start the new job on 6th January. Thank you very much Tara, I will certainly recommend Aussieresumes to my colleagues in future. - Roy

I was having some limited success in getting interest from employers and recruiters with the resume that I wrote for myself. **When I started distributing my new resume that Aussie Resumes wrote for me, then my phone starting ring more often, and I was getting more interviews.** Then I had to choose a job offer, and I didn't have any such luxury before I got some help from Aussie Resumes. Thank you!

- Stephen, Senior Network Engineer.

I just wanted to let you know that **I had an interview today** for an Assistant Chemists position here in the UK. I think the interview went quite well so I just wanted to say thank you again for the impressive resume. I still want to come back to Australia to pursue my career but it's great to get in some interview practice and it has given a boost to my confidence.

I had feedback from the other position in regards to the Board of Studies. **Out of 90 applicants, I was in the top 5.** I phoned this morning to obtain info about my application and selection criteria. The person involved informed me that both the resume and selection criteria was excellent. The person who was interviewed and offered the job had abilities in mathematical and language computing. I did not have the experience in this. However, with my experience with the special needs, they have passed my resume and references to a special needs department. Please stay in touch, and thank you very much for your input and guidance. - John

I am quite impressed. Thank you for your help. **I gained a 27.2% increase in net salary**, new car and a promotion to a new position. - James, Assistant General Manager, Kenya

**Had the phone interview** last Thursday, now I go to the Property next week for a few days to meet and greet and to see if I like the job. Thank you again, for the resume preparation. I have passed your resume writing contact web address on to others in this district.

- Ernie, Property Manager

Personal, friendly service. **Felt like you were truly interested in helping me produce a good resume.** The flexibility in accommodating my many revisions was also appreciated... not just tick a box stuff. - Mark, Music Teacher

**I got the job!** Thanks so much for your help - I think it was what got me through I did not think my interview was great! Let me know if you need a reference!

- Peter, Senior HR Consultant (OS&H)

Thankyou for your fine work. I am amazed that you have managed to reduce my CV from 10 pages to 4 and the quality of the work. **I am willing to employ myself after reading the CV.** - Sean, Software Development Contractor

Thankyou very much for your prompt and high quality service. **Not only have you given me the tools to go out and be successful, but you have also regained the confidence in myself.** One goes through some soul searching when re-entering the job market and the way you have presented my job history made me sit up and think, hey I really did do all that stuff and can do it well again. You provide a great service, and you can expect plenty of referral work from me. Thanks and Best Regards.

Tara held me accountable each week so I would make progress... Asking powerful questions, listening for what wasn't said. She always congratulated me and made sure that I saw the progress I was doing and my strengths. Keep up the good job and your positive attitude. **You give energy and motivation to your clients.**

- Michaela Steensen, Hawaii

When I decided to relocate to Australia without a job, it was important for me to make sure that I got the correct message regarding my key skills, achievements and experience to the job market. I commissioned Tara to re-write my résumé for me in the "Australian" format, but ended up getting a much more comprehensive professional service from Tara than I signed her up for. This included advice on how to approach the job market through a multi-tier plan, the key aspects of successful interviewing, which types of jobs to focus on etc. Even after I received a number of job offers Tara was kind enough to advise me on which opportunities would suit my skills set better and therefore **have a higher probability of long term job satisfaction and career growth** for me and my new country of residence. She is friendly, punctual, an expert in her field and boasts unquestionable integrity. It is with pleasure that I recommend their services.
